Introduction

You have downloaded this report because you want to discover the fastest way to make money online.

Congratulations, you're in the right place...

But before I get into it, a little disclaimer if you will...

When it comes to making money online, there is no such thing as a genuine, legal, 'get rich quick' scheme that works.

If you're serious about changing your life, I would avoid anything that is 'blackhat' or reliant on a 'loophole' as these methods are likely to be short term and could quite possibly land you in hot water.

In order to really become successful online, I would recommend a legal, ethical long term model that has proven to stand the test of time. And that's exactly what I'm going to provide you with in this report.

Now that's out of the way, I want to make something very clear...

In this report I'm going to give you the fastest way to make money online. You're going to discover how you can start making money today even if you've never made a penny online before. However, this is not a get rich quick scheme. You're not going to make thousands of dollars today, hundreds of thousands of dollars this month and millions of dollars this year with this method. However, long term, it's absolutely feasible you can make life changing numbers with exponential growth.

This report is for serious people with realistic expectations.

I'm talking about people who are happy to make a few hundred dollars in their first month online and growing from there...

If that sounds like you, then read on...

Affiliate Marketing

Affiliate Marketing is hands down the fastest way to get started making money online. Why? Because the vast majority of the hard work is done by the 'vendor' or 'advertiser'. The affiliate simply needs to drive targeted traffic through their affiliate link to get paid...

It doesn't get any more simple than that.

With the new form of affiliate marketing, an affiliate can promote offers based on an 'action' rather than a sale. This makes affiliate marketing even easier than ever before.

Here's how it works...

With cost per action affiliate marketing, the vendor/advertisers pays you (the affiliate) for sending prospects their way to perform an agreed 'action'.

When a prospect passes through your link and performs that action - which could be completing a form, getting a quote or signing up for a free trial - you get paid a 'commission'.

Let me give you an example of how easy it is to **make money today** using this method...

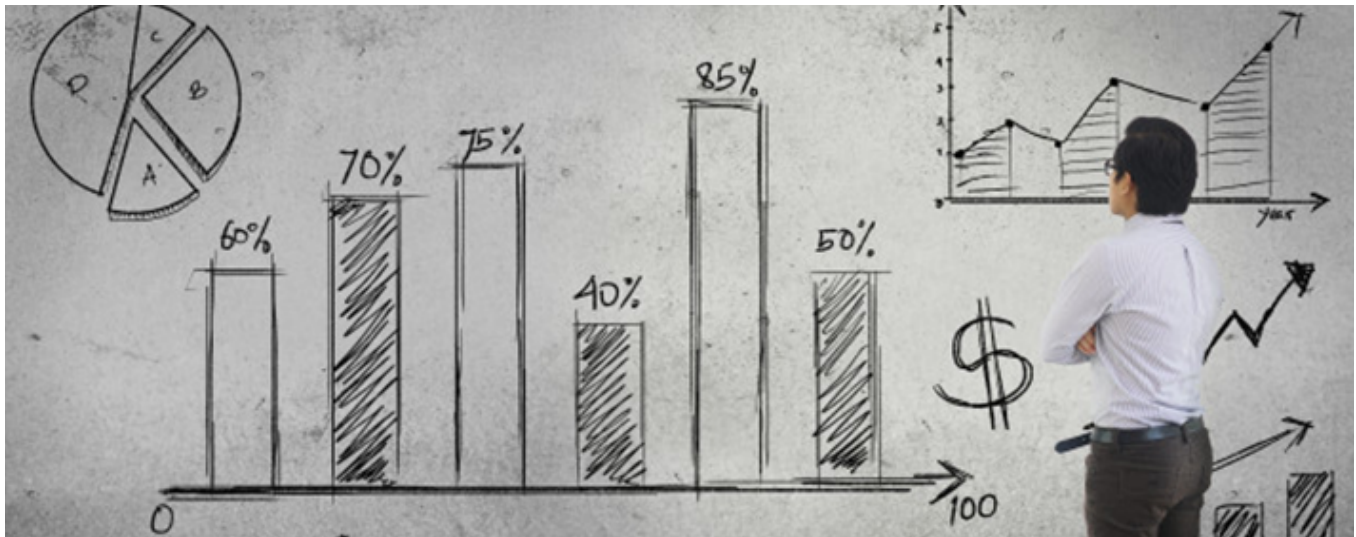

Anyone can do this.

In fact, if you've never made a commission before, I strongly suggest you do this to prove my point. It will be the easiest money you ever make...

Sign up to a cost per action affiliate network...

Promote a 'competition' offer that pays you when you send them a competition 'entry' to win something (Let's say a holiday)...

This is a cost per action affiliate offer. The 'action' or 'entry' will be as simple as entering an email address and some details, typically. It will be free...

Then email one of your friends with the link and say sign up to this competition. Say you've signed up already and will take them if you win, but you want to double the chance of winning...

When they enter after clicking your affiliate link, **you get paid.**

BOOM, your first commission, it was that simple.

And how long did it take you? 10 minutes? 15 minutes at a push?

This is just an example to prove it works. Obviously I do not recommend you keep sending affiliate offers to your friends!

But if you can make a commission that simply, in minutes, then it's clear that you have a business model that works and is scalable...

In this report I'm going to explain the 3 step process to scale up a super simple yet profile affiliate marketing model that can start making money today (and not from bothering your friends)...

Let's get into it...

Step 1:

Identify a profitable audience

The first step to cost per action affiliate success is finding a profitable audience. This is essentially ensuring that you have a market to promote to, i.e. you're not targeting a dead niche.

In order to do this, you first need to sign up to some CPA affiliate networks and see what offers they have for you to promote.

A CPA Network is the platform that connects advertisers and affiliates. You obtain your affiliate link from the Network and they ensure you get paid. Before doing any affiliate marketing, you should ensure you select a network that is legit and pay affiliates by looking at their reviews.

Once you've signed up to a legit network, you want to see what type of offers they have. For each offer that sparks your interest, you're going to want to look at how complicated the 'action' is that requires you to get paid and the offer's EPC (earning per click).

Obviously, you're going to want the 'action' to be simple to execute. If the prospect has to jump through hoops to perform the action, it's going to be hard to convert them. The EPC will give you an idea of how profitable the offer can be.

Let's say you find a 'competition' offer to win a holiday to Las Vegas that sparks your interest. Now you need to get an idea for how many people are interested in this niche.

How can you do that...

- You can look at Google keywords planned to see how many searches are being performed related to Las Vegas competitions...
- You can look at Las Vegas groups on Facebook (how many groups are there, do they have many members)...
- You can look at how many related posts there are on Instagram and how they have been received...

This is the step that requires some serious marketing knowledge and know-how. It's going to take some time but like I've said, this isn't a get rich quick scheme. It's optional, but I'd recommend a research tool like **Thrive** if you're just starting out as it will identify the profitable niches in minutes without any technical expertise required.

Now let's jump into step 2...

Step 2: Create a 'hub page' for your offer(s)

Your hub page is the 'bridge' between you and the offer. It's essentially the introductory page where you reinforce the value of the offer prior to sending prospects through your affiliate link. A good hub page is vitally important for ensuring the best conversion rates...

As an affiliate, you should be looking to send prospects to your hub page - where you reinforce the value of the offer - and then onwards through your affiliate link. You can even capture leads on your hub page should you want to (optional)...

In order to create a good hub page, you will need web hosting and possibly the expertise of a web developer (or some time to learn) if you don't know how to create these pages yourself. Alternatively, tools like **Thrive** will create hub pages for you automatically if you want to get things done as quickly as possible...

In order to ensure your hub page has the best conversion rates, you will be required to do split testing. For this reason, I do recommend a tool like **Thrive** because the pages Thrive creates in minutes have already been tried and tested and are proven to convert. Thrive also hosts the hub pages for you, which saves you a lot of money almost instantly.

>> [Click here to learn more about Thrive](#)

Although you can skip this step and drive prospects directly through your affiliate link, I would highly recommend you create a hub page. Cutting corners will reduce your income in the long run.

Step 3: Drive targeted traffic

The final step of succeeding as an affiliate, starting today, is driving targeted traffic to your offers.

Of course, the fastest way to do this is with Pay Per Click (PPC) or other paid methods. However, this is something I wouldn't recommend jumping straight into if you are a newbie.

Plus it's possible to drive targeted traffic for free...

Remember those Facebook groups I mentioned earlier (when researching your audience) well, you can post on groups like that (plus other social sites) for free, driving targeted visitors to your hub page.

This is another good thing about **Thrive**. As a complete micro system generation tool, Thrive also includes free traffic generation. Thrive seeds high quality, automated messages on high traffic social websites to drive free visitors to your hubs automatically, 24/7. You do not have to learn copywriting, video creation or anything else, which would be essential if you were to do all of these steps manually...

>> [Click here to learn more about Thrive](#)

When you start making money with Thrive, you can then reinvest your profits into PPC to make more money. A general rule of thumb to make money with PPC when promoting these offers is to keep your cost per click (CPC) below the offered EPC. That way, if the advert pre-qualifies the leads, you should (theoretically) make money. But this is no guarantee, which is why I strongly suggest that you start making money with free traffic first.

In Summary

Making money as a CPA affiliate marketer isn't as complicated as you thought it was and it's perfectly feasible to start making money almost instantly.

However, if you choose to do everything manually, it is going to be a lot more time consuming than using an automation tool like Thriive. With Thriive you can have your entire micro system (business) up and running within the hour (probably a lot sooner) so this is the best way to go if you're serious about making money as quickly as possible.

The other good thing about Thriive is that it's newbie friendly. All of the technical work is eliminated with this software.

>> [Click here to learn more about Thriive](#)

Thriive does a very good job of selecting a profitable 'hidden' audience, creating a high converting hub page and driving traffic to it at the touch of a button...

Investing in Thriive ensures you execute each step perfectly, eliminates any technical boundaries or doubts that can lead to paralysis by analysis.

Here's a recap of why I suggest you take a look at Thriive:

- It's brand new
- Developed by affiliates for affiliates
- Automates an entire cpa / affiliate marketing business

Thriive creator Mark Bishop actually used this method to generate \$123,936 in his first 6 months online. Crazy results!

>> [Click here to check out Thriive](#)

Whichever route you take, automated or manual, you now know what it takes to succeed and start making money today! Good luck!

Edward

THANK YOU

As a way to say thanks I am giving you a Special Bonus Worth \$1997 for Free.

Yep, that's right and it's just a way to prove that you are very important to me.

Now before we start this guide, I want you to collect your FREE Bonus from the Link Below....
